Explanatory Note

(This does not form part of the order, but is intended to indicate its general purport.)

As per sub-rule (2) of rule 43 of the Kerala Co-operative Societies Rules, 1969, if a casual vacancy of office bearer such as a President, Vice-President, Treasurer or any other Officer is arised, the committee in office shall request the State Co-operative Election Commission within fifteen days of arising such vacancy to appoint a Presiding Officer to conduct election. A vacancy of President arises in Payyampally Labour Contract Co-operative Society Limited No. W.348 in Wayanad District due to the resignation of the President. There was a delay in submitting application to the Kerala State Co-operative Election Commission for appointing a Presiding Officer to conduct election of President in the said society and therefore the application was rejected by the Co-operative Election Commission. The managing committee of the society has resolved to request the Government through the Registrar of Co-operative societies to seek exemption from Government from the provision of sub-rule (2) of rule 43 of the Kerala Co-operative Societies Rules, 1969. The Registrar of Co-operative Societies has recommended the Government to exempt the Payyampally Labour Contract Co-operative Society Limited No. W.348 in Wayanad District from the provision of sub-rule (2) of rule 43 of the Kerala Co-operative Societies Rules, 1969, for the purpose of submitting application to the Kerala State Co-operative Election Commission for appointing a Presiding Officer to conduct the election of President in the said society. The Government have examined the matter in detail and are satisfied that it is necessary, in public interest, to exempt the said society from sub-rule (2) of rule 43 of the Kerala Co-operative Societies Rules, 1969, so as to enable the said society to submit application to the Kerala State Co-operative Election Commission for appointing Presiding Officer to conduct the election of President in the said society.

This order is intended to achieve the above object.
